

## **ABRIDGED LESSON PLAN**

Course Title: <b>Database Management Systems</b>	Course Code: <b>CS0414</b>
LTP: <b>4:0:0</b>	Duration of SEE: <b>3 Hours</b>
SEE Max. Marks: <b>100</b>	CIE Max. Marks: <b>50</b>
Lesson Plan Author/s: <b>Narender M</b>	Date: <b>31/07/2018</b>

### **Portions to be covered and duration**

1. Portions to be covered before Test 1 (Total 23 hrs.)
  - a) **Unit 1 (Complete)**
  - b) **Unit 2 (Complete)**
  - c) **Unit 3 (Till: Transaction Semantics)**
  
2. Portions to be covered after Test 1 and before Test 2 (Total 13 hrs.)
  - a) **Unit 3 (From: Serializability to: Transactions in MySQL)**
  - b) **Unit 4 (Complete)**
  - c) **Unit 5 (How does index works?)**
  
3. Portions to be covered after Test 2 and before Test 3 (Total 11 hrs.)
  - a) **Unit 5 (From: Types of Indexes to: View Examples)**
  - b) **Unit 6 (Till: Failure types and Logs)**
  
4. Portions to be covered after Test 3 and by the end of Semester (Total 5 hrs.)
  - a) **Unit 6 (From: Log details to: MySQL)**
  - b) **If time permits, then discussion about other relational databases will be done.**

### **Evaluation Scheme**

Sum of the better marks obtained from any two tests shall be the final CIE Marks.

<b>Assessment</b>	<b>Weightage in Marks</b>
TEST 1	25
TEST 2	25
TEST 3	25
<b>Total CIE</b>	<b>50</b>

A written examination of three hours' duration of 100 marks, with 50% weightage.
